## FLIGHT TRAINING ACADEMY

Duration 18 Months

ADMISSIONS OPEN - 2026

Flying School in Europe  
Debrechen, Hungary

# About Us

Get to know us better

Founder

**Capt. Preet Palash**

Co-Founder & Training Manager

**Capt. Rohit Taneja**

Chief Ground Instructor

**Capt. Sakshi Jain**

Eazy Pilot Academy was founded in 2020 by Capt. Preet Palash and Capt. Rohit Taneja, two seasoned aviators united by their deep love for flying and a shared mission to mentor the next generation of pilots.

With years of experience in the aviation industry, they envisioned an academy that not only provided world-class pilot training but also prioritized personal mentorship, industry readiness, and global exposure.

In a remarkably short span of time, Eazy Pilot Academy has grown into a trusted name in aviation training. We have proudly established strategic partnerships with some of the most reputable flight schools across South Africa, India, and Europe. These collaborations allow us to offer our students diverse training environments, international certifications, and access to advanced aviation technologies.

To date, we have successfully trained over 50 aspiring pilots, many of whom have gone on to secure prominent positions in leading airlines and aviation organizations around the world.

# From the Co-Founder

Capt. Rohit S. Taneja  
Training Manager, EazyPilot Academy  
SACAA Flight Instructor  
EASA Ground Instructor

At EazyPilot, our mission is to transform aspiring aviators into skilled, confident, and safety-conscious pilots. With world-class training facilities, experienced instructors, and an inspiring flying environment, we ensure every student experiences excellence in aviation.

Our commitment goes beyond flight hours — we mentor, guide, and build future-ready pilots prepared for global opportunities.

Join us, and let's take your passion for flying to new heights.

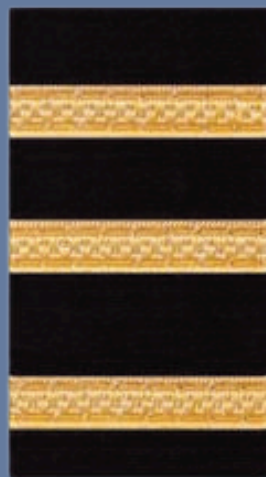

Everybody has two lives- And the second one starts when you realise you just have one.

Make the most of it!

# Types of Pilot Licenses

- 1** SPL – Student Pilot’s License  
The first step in flight training; allows students to begin flying under supervision.
- 2** PPL – Private Pilot’s License  
Permits flying for leisure and personal purposes; not for commercial operations.
- 3** CPL (IR) – Commercial Pilot’s License with Instrument Rating  
Allows flying for hire and reward, including operations in low-visibility and instrument conditions.
- 4** ATPL – Airline Transport Pilot’s License  
The highest level of pilot certification; required to command large commercial airliners.
- 5** FRTOL – Flight Radio Telephone Operator’s License (Restricted)  
Authorizes radio communication with Air Traffic Control and other aircraft.

# Our Strengths- Our Students

---

## Overall Performance

With the global demand for competent and resilient professional pilots on the rise, Eazy Pilot Academy is dedicated to selecting and developing only the most talented student pilots in the industry.

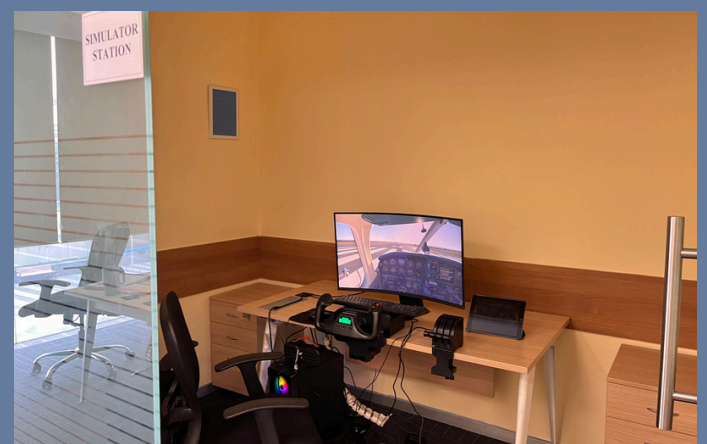

## Small Batch Sizes

By admitting only a limited number of students per batch, Eazy Pilot ensures each individual receives our undivided attention. Our instructors are readily approachable and have vast instructional experience.

## Fixed Base Simulator

We feature an integrated simulator station on-site. This Simulator enhances motor skills, facilitates a smoother transition into the cockpit, and understand and memorise checklists saving both time and cost.

“Precision training, personalized guidance, and unwavering support—this is how Eazy Pilot gives your wings the wind to succeed.”

# Courses

---

- **Private Pilot License (PPL)**

Allows the holder to fly aircraft privately for leisure, personal travel, or sightseeing — not for commercial operations or compensation.

- **Commercial Pilot License- Aeroplane CPL (A)**

Enables the holder to fly professionally and earn from flying. Career paths include airline pilot, cargo pilot, charter pilot, corporate pilot, and flight instructor.

- **Commercial Pilot License- Helicopter CPL (H)**

This qualifies a pilot to operate helicopters for hire, reward, and professional aviation roles.

- **Cadet Pilot Programme Preparation**

Comprehensive training designed to help students clear airline cadet pilot selection processes, including IndiGo and Air India. It covers written exams, psychometric tests, group tasks, interviews, and simulator prep.

- **Integrated ATPL Programme**

A structured pathway to obtain an Airline Transport Pilot License through a combined training program in Europe, preparing pilots for multi-crew commercial airline operations at an advanced level (includes UPRT and MCC).

# Ideal Candidate

---

- **Age Requirement**

Must be at least 16 years old at the time of application.

- **Medical Fitness**

Must obtain a fitness certificate from an approved DGCA Medical Board, meeting all requirements under Section 39B. A DGCA Class 2 Medical is mandatory to begin flight training and apply for SPL. After receiving the assessment report, candidates can directly proceed to Class 1 Medical.

- **Educational Qualification**

Must have passed Class 12 (10+2) with Physics and Mathematics\* from a recognized board or equivalent examination.

- **Training Readiness**

Candidates should meet all academic and medical prerequisites to begin flight training, including securing DGCA approvals and completing necessary documentation for Student Pilot Licence (SPL).

## Top 5 skill set required for a Pilot

---

- 1 Situational Awareness
- 2 Problem Solving
- 3 Multitasking
- 4 Teamwork
- 5 Leadership

# Road Map to the Cockpit

A clear, step-by-step pathway from medicals to ground school, flying training, and final DGCA conversion for a smooth pilot training journey.

→ Class I & 2 Medical; Computer Number Allotment

Duration: 1-1.5 Months\*

→ Ground Classes:

Air Meteorology

Air Regulations

Air Navigation

Technical General

Technical Specific

Radio Telephony (RTR)

Duration: 4-6 Months

→ Flying Training

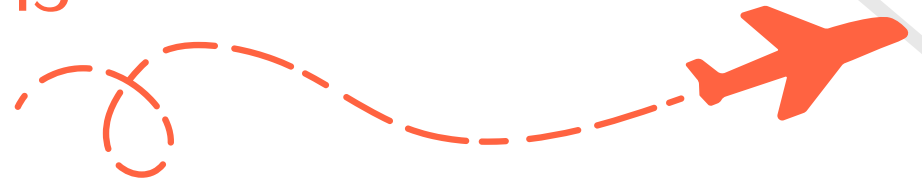

Duration: 12-15 Months

→ DGCA Conversion Check Ride (If training abroad)

Duration: 2 Weeks\*

# Flying Training Locations

## India

- Familiar aviation regulations for Indian students (DGCA-aligned programs)
- No cultural or climate adaptation required- easy transition
- Strong job market awareness and direct exposure to Indian airline recruitment trends

## South Africa

- Cost-effective compared to many Western countries
- Excellent weather year-round- more flying days, faster course completion
- Multi-crew and bush-flying style exposure that builds confidence

## Hungary, Europe

- EASA-aligned training offering global career mobility
- International student community and excellent safety culture
- European training environment with highly professional standards

# PharmaFlight Academy, Debrecen, Hungary

Hungary's wide, calm skies, picturesque countryside, and clean, well-managed airspace create an environment where every flight feels both inspiring and immersive.

It makes flying in Europe,  
**WORTH IT!**

Debrecen International Airport, Hungary

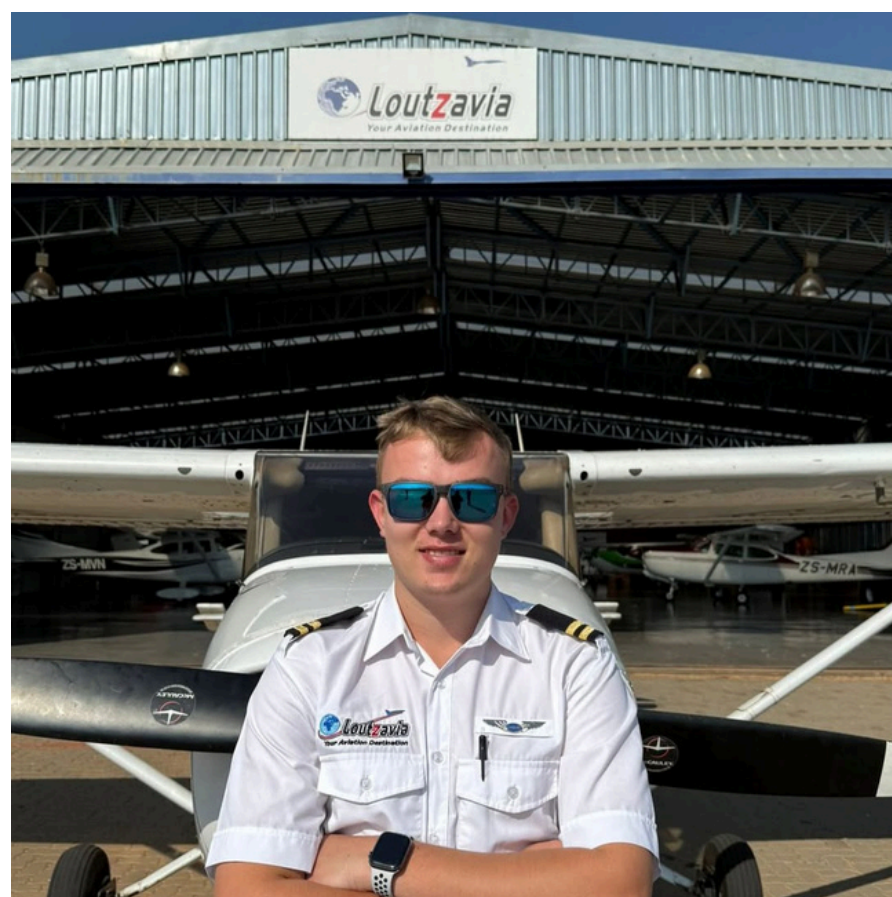

# Fly in South Africa

Flying in South Africa offers stunning coastlines, open skies, and diverse terrain—from mountains to bushveld—giving student pilots unmatched real-world experience.

## Loutzavia Flying School, Pretoria

# Testimonials

Real experiences from students who trained, grew, and soared with us!

Instructors are truly exceptional! Their depth of knowledge and ability to explain aviation concepts in a clear and engaging manner has made this a great learning experience.

-Shivansh Agarwal

The level of expertise and personalized attention to our unique needs has made them an invaluable ground school.

-Deemocha

I've been thoroughly impressed with the exceptional level of service and creativity they bring to the table.

-Dinky Deva

I passed all my exams in the first attempt. I was very intrigued from the very beginning at Eazy Pilot. Sakshi Ma'am guided me throughout with practical knowledge really well.

-Swara Agarwal

I have completed all my papers from Eazy Pilot. I have been in the first batch and I am preparing for flying as well. Preet Sir is a great mentor. His knowledge and experience helped me navigate everything smoothly.

-Muskan Singh

At Eazy Pilot, I completed all my papers in the first attempt and going for flying soon. All the instructors give so much attention personally. I have had the best experience!

-Saksham

“From first step to first solo—  
we guide you every mile.”
